## **Grading Explanation**

1. An asterisk (\*) indicates a grade obtained after retaking the course.
2. A pass indicates that the student scored 50% or higher in formative and summative components respectively. A student that does not meet minimum requirements will fail the course, even if the overall grade is 50% or higher.
3. CO stands for 'compensated'. It indicates the student recieved between 45% and 50% in either formative or summative component of the course, but with an overall grade of 50% or higher. CO is a passing grade.
4. The final CGPA considers the credits per course, the percentage (%) grade, and the total number of credits.
5. The table below describes ALU's 5.0-point scale how it translates into percentages.

5 Point Scale	Cummulative Percentage
5.00	100%
4.00 - 4.99	80% - 99.99%
3.00 - 3.99	60% - 79.99%
2.00 - 2.99	40% - 59.99%
below 2.00	less than 40%
